

## THE JEREMY KRAUSS APPROACH FOR CHILDREN BASED ON THE WORK OF DR. MOSHE FELDENKRAIS Paris, 29th and 30th of July 2017

### Workshop Instructor: Thomas Farnbacher

Thomas came to the Feldenkrais Method of movement from different disciplines: martial arts, dance, massage and physiotherapy. The birth of his children led him to intense studies about developmental aspects. He completed his training in 1995 in Vienna. For many years he was dedicated exclusively to his work as a professional and assistant trainer under the supervision of Jeremy Krauss and Paul Newton in Austria, Germany and Spain. In 2016 he was accredited as a Feldenkrais trainer. He is one of the first graduates of the JKA training program for the work with children who have special needs. He speaks German, English and Portuguese and lives in Chiemsee, Germany.

The Jeremy Krauss Approach (JKA) is a unique way of helping children with special needs to learn, grow and develop their potential and abilities on the physical, mental and emotional levels. In this introductory workshop Thomas Farnbacher will present following basics of JKA :

- 1• Specific group lessons with developmental themes and questions (Sensory Active Developmental Movement Lessons – SAM),
- 2• Ways to enhance our observational skills,
- 3• Hands on study, utilizing the JKA, plus various techniques, processes, and methodology derived from Dr. Feldenkrais' Functional Integration,
- 4• Models of the JKA methodology.

### This weekend is open to:

- Physical therapists and all other professionals working in interdisciplinary fields related to movement and /or child development of children with and without special needs.
- Feldenkrais Practitioners, osteopaths, naturopaths, occupational therapists, paediatric nurses and paediatric physical therapists, Bobath therapists, Child Space practitioners, Hanna Somatics, child educators, massage therapists and others.
- Parents of children having special needs or not.
